

What YOU can do to help get the MOST \$ and the best lease terms in the quickest amount of time

One way the rest of us can help is by continuing to talk to your neighbors. Let them know that you have joined us, the benefits, and what you have learned at the meetings. They may not know the WENA leadership or the block captains, but they do know you. Make sure that everyone that has not already signed a lease, signs a Memorandum of Intent (MOI) to join us. If you don't have an MOI, they are available further down this page. Pull the document up and print as many as you need to give to your neighbors. You will be doing them a favor, which will benefit both your neighbors and yourselves. Remember that unity in a neighborhood will get us a better deal with a better price.
