

October 3, 2008 Update - Welcome Oakwood Terrace - We are proud to have Oakwood Terrace join us!

Based upon the commonality between the two groups, the West Eules Neighborhood Alliance (WENA) and South Eules Oakwood Terrace have banded together for the purpose of strength through joint negotiations. Hereinafter, in order to help provide notice and keep everyone on the same page, members of the combined group will be mostly kept informed through the WENA website: www.westeules.com. Members with email will be responsible to check the website for periodic progress reports. The people in each group without email will continue to be informed through their group's telephone committee as new information is posted on the website. By combining our groups, the area we now cover includes all of the properties that are West of Main Street, South of Hwy 183 (Airport Frwy) and to the southern and westernmost borders of Eules (excluding Morrisdale which has already signed a gas lease). For several reasons, it is imperative that we try to get as many of the remaining "holdouts" or unleased property owners in this area to join the coalition by signing MOI's. Our newly formed alliance is in the early stages of negotiations with at least two gas companies and is working quickly to develop and negotiate lease agreements that can benefit all of the participating property owners. Both leadership groups have worked extremely hard during the past nine months and joining together enhances the opportunities for all.
